There's a secret path I follow
To a place no one can find
Where I meet my perfect someone
I've kept hidden in my mind
Where my heart makes my decisions
'Till my dream becomes a vision
And the love I feel
Makes him real someday

Cause I know he's out there somewhere
Just beyond my reach
Though I've never really touched him
Or ever heard him speak
Though we've never been together
We've never been apart
No we've never met
Haven't found him yet
But I know him by heart

Am I living an illusion?
Wanting something I can't see
If I compromise, I'd be living lies
Pretending love's not meant to be
Cause I know my heart's worth saving
And I know that he'll be waiting
So I'll hold on and I'll stay strong 'till then

Cause I know he's out there somewhere
Just beyond my reach
Though I've never really touched him
Or ever heard him speak
Though we've never been together
We've never been apart

No we've never met
Haven't found him yet
But I know him by heart
No we've never met
Haven't found him yet
But I know him by heart
