Learning to be lonely when it's easier to crawl
You've given up on trusting at all
And how did we wind up in a dream we can't undo?
Stupid to think it really could come true
I can't wait for tomorrow
I'm lapsing today
Fall into the bottom
Push me all the way
I'll be here waiting
'Til the wrong seems right
This is the last thing we need
It's a struggle
It's a let down
Only worth it's wait in gold
Don't let the drama surround you
Or get in your way
'Cause if you never let the weather
Warm you up when you get cold
Hours will pass
Raise your glass
We've got nothing to say
I can't wait for tomorrow
I'm lapsing today
Fall into the bottom
Push me all the way
I'll be here waiting
'Til the wrong seems right
This is the last thing we need
'Cause people keep on moving while were stuck here
Rotting away in the ashes
Of the city by the bay
Believe when I say
Oh, someday we'll break out
Break out
I can't wait for tomorrow
I'm lapsing today
Fall into the bottom
Push me all the way yeah yeah
I'll be here waiting
'Til the wrong seems right
This is the last thing we need
(Last thing we need)

This is the last thing we need
(Last thing we need)
This is the last thing we need
(Last thing we need)
This is the last thing we need
