

Voodoo Blue "Drown"

Visit "[Drown](#)" on MotoLyrics.com

Floating out
Swallowed down
But I can't seem to drown
Floating out on the rivers in my mind
Somehow I can see my life
In all it's glory and it's shame
My conscience tells me that your the one to blame
Return to what we understand
And I don't know
How do I breathe, how do I breathe?
When I'm drowning in my sleep
How do I wake before I'm just a memory?
How do I breathe (how do I breathe?)
When I'm drowning, drowning in my sleep?
Drifting out
As a current cuts my throat
I breathe back out
In different times
You still might find the things you thought were only
yours to keep
Turn out to be the same as mine
Return to what we understand
And I don't know
How do I breathe, how do I breathe?
When I'm drowning in my sleep
How do I wake before I'm just a memory?
How do I breathe (how do I breathe?)
When I'm drowning, drowning in my sleep?
Floating out
Swallowed down
When I drown
Washed up and wondering if I'll ever be found
Left in the wake waves crash and break 'till I'm face
down
