Bruised and abused, but still easily amused  
Can't figure why he still comes around  
Nobody hates him, they just like to humiliate him  
Then he'll take the shirt off his back for you

Sticks and stones can't break his bones  
He'll come back swinging at you  
Sticks and stones can't break his bones  
Because he's the human pinata

Everyone's a character in his dreams  
Nothing else can bring him down  
He'll be the player on the other team  
Just to make the game complete

He does things his way, not like anyone else  
A strong believer in himself  
The laugh's on him, and it doesn't matter  
He'll leave the attitude on the shelf
