Shelter the sound
It's not safe for you
It's all around
All that I feel and wanted

It's not a question a matter of time
Breath, let go, slow decay

Here they come...
Ready to take you away

It's all in the way the waves crash down
And I'm getting older
It's all in the way your head stays firm
And I am your shoulders

Pass me around
I have faith in you
Til I have found
All that I need from wanted

Here they come...
Ready to take you away

It's all in the way the waves crash down
And I'm getting older
It's all in the way your head stays firm
And I am your shoulders

Slow are we
Ready to take you under
Here is the "I" in "me"
As the world passes me
As the world passes me...
Slow decay

Here they come...
Ready to take you
Ready to take you
Ready to take you away

And it goes...

It's all in the way the waves crash down
And I'm getting older
It's all in the way your head stays firm
And I am your shoulders
It's all in the way I feel the sun
And I'm getting colder
