Voodoo Blue
"When I Say Go"

When opened up
This world to me
I felt you lied
Completely...

With open arms
Without a voice
What is freewill
Without a choice

Turn me upside down
To see what stays and falls out
Spin me back around
When I say go

Turn me upside down
To see what stays and falls out
Spin me back around

You asked for love
So, I gave you mine
Still I cry
Inside...

It seems to me
If you use your voice
We're all given
A different choice

Turn me upside down
To see what stays and falls out
Spin me back around
When I say go

Turn me upside down
To see what stays and falls out
Spin me back around

When I say go...
Go (repeated)
When I say go...
Go (repeated)

And still I try
To sleep at night
It hurts sometimes
Inside

I need a change in the worst way ever
I need a change in the worst way ever

Tell em like it is
Tell em how it should have been
Tell em like it is
Tell em how it should have been

Turn me upside down
To see what stays and falls out
Spin me back around
When I say go

Turn me upside down
To see what stays and falls out
Spin me back around
