

## Vordr "Eyes Of Uncaring Cold"

Visit "[Eyes Of Uncaring Cold](#)" on MotoLyrics.com

Gaze into the hateful blue  
The eyes of uncaring cold  
Driven deep into your mind  
Forever loathing you

Depressed at your words  
Sickened by your thoughts  
Strangled in the human flesh  
Yes scars are keys are scars

Rubbing gun-powder  
In the wounds  
Not much sense in this world  
All that of nature is raped  
And you still remain prosperous

Gaze into the hateful blue  
The eyes of uncaring cold  
Driven deep into your heart  
Forever making you sick
