(Verse)

I know there's something more
Something worth living for
I know I'm here for a reason

(Verse)

When I look to the sky
When the darkest night
I need a hope to believe in

(Pre-Chorus)

I'm waiting
Draw me closer
I'm praying oh

(Chorus)

Give me life
Show me who you are
Shine your light
Brighter than the stars
Open up the sky
Let the sun burn bright
Every day and night
Illuminate my life
Open up the sky
Let the sun burn bright
Every day and night
Illuminate my life

(Verse)

In the darkest place
Secrets that I hide
Oh I know you can see them

(Verse)

Through all of my mistakes
You're still by my side
You are the hope I believe in

(Pre-Chorus)

I'm waiting

Draw me closer
I'm praying oh

(Chorus)
Give me life
Show me who you are
Shine your light
Brighter than the stars
Open up the sky
Let the sun burn bright
Every day and night
Illuminate my life
Open up the sky
Let the sun burn bright
Every day and night
Illuminate my life

(Bridge)
You make me
You know me through and through
So take me
And make me more like you

(Chorus)
Give me life
Show me who you are
Shine your light
Brighter than the stars
Open up the sky
Let the sun burn bright
Every day and night
Illuminate my life
Open up the sky
Let the sun burn bright
Every day and night
Illuminate my life

(Outro)
Give me life
Show me who you are
Shine your light
Brighter than the stars
