### "Let's Fly Away"

Visit "[Let's Fly Away](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Let's find an island, let's find a new land, make it a  
dreamland  
Deep of the night stands a star shining bright, next to  
the moonlight  
We've been around too long, we're looking for the song  
A new hurry is on this calling, guess we'll soon be gone

Let's fly away for holidays and summertime is gonna  
take us  
Let's fly away this golden day and magic songs are  
gonna wake us  
It's in the air, just don't know where but summertime is  
gonna take us  
Let's fly away for holidays and magic songs are gonna  
wake us

(Let's fly away for holidays and summertime is gonna  
take us)  
(Let's fly away this golden day and magic songs are  
gonna wake us)

We go like flying, we go let leaving to a garden of Eden  
We'll sail a dreamboat, follow a rainbow, you're  
welcome on board  
We've been around too long, we're looking for the song  
A new hurry is on this calling, guess we'll soon be gone

Let's fly away for holidays and summertime is gonna  
take us  
Let's fly away day after day and a morning star is  
gonna wake us  
It's in the air, it's everywhere when a golden sun is  
gonna take us  
Let's fly away day after day and magic songs are  
gonna wake us

(Let's fly away for holidays and summertime is gonna  
take us)  
(Let's fly away this golden day and magic songs are  
gonna wake us)

We'd rather empty it going, night turns into day  
We'll meet again somehow, well, the sun will light away

Let's fly away for holidays and summertime is gonna  
take us

Let's fly away day after day and a morning star is  
gonna wake us

It's in the air, it's everywhere when a golden sun is  
gonna take us

Let's fly away day after day and magic songs are  
gonna wake us

(It's in the air, just don't know where but summertime is  
gonna take us)

(Let's fly away for holidays and magic songs are gonna  
wake us)

Let's fly away for holidays and summertime is gonna  
take us

Let's fly away this golden day and magic songs are  
gonna wake us

(It's in the air, just don't know where but summertime is  
gonna take us)

(Let's fly away for holidays and magic songs are gonna  
wake us)
