White, white is the one  
Bright as the sun  
Into the battle the stallion rides  
Voices will sing  
Storm of the wind  
Free as the heart of the warrior king

She fights the fire  
Wings of desire  
Thundering out of the funeral pyre

Howl of the hounds  
Silence the sound  
Run them into the ground

Fear the fire  
Fear the thunder in her eyes  
As she is running through the skies she is my

White Shadow, run White Shadow  
White Shadow, run White Shadow  
White Shadow, run White Shadow knight  
In the darkness I will see your light

She, mare of the sky  
Breathing with life  
Leaving a trail of fire  
Behind the nation  
Fire invasion  
This sensation  
Infinite universe chase

Fear the fire  
Fear the thunder in her eyes

As she is running through the skies she is my

White Shadow, run White Shadow  
White Shadow, run White Shadow  
White Shadow, run White Shadow knight  
In the darkness I will see your light

In the darkness of the night  
I will feel the burning light  
My shadow fire  
Can you feel she is the one?  
In the shadow of the sun!  
Can you see her run?

In the darkness of the night  
See her burning deep inside she is my

White Shadow, run White Shadow  
White Shadow, run White Shadow  
White Shadow, run White Shadow knight  
In the darkness I will see your light

White Shadow, run White Shadow  
White Shadow, run White Shadow  
White Shadow, run White Shadow knight  
In the darkness I will see your light
