"Fire On The Mountain"

Rebirth of life
New moral values awake
A beast takes shape
Awakes an inner hate

Primal instincts let wild
An untamed figure arise
From the shadows it's watching
An enclosure of the skies

Order and rules set aside
The desire for power reigns
The quest to hunt
Shadows the hope of being saved

The savage spirit
No longer restrained
Kill or be killed
The hunter versus his game

Fire on the mountain

Fire on the mountain
Innate evil alive
As the flame is dying
Lord of the flies

Fire on the mountain
Fire on the mountain
