like i said i would return
cyrogenically preserved
but you've got cold shoulders
for me to lean on.
i can't forget you girl;
i don't remember how to spell your name

the oxygen i breathe
you are my favorite dream
you're my poison and you are my nightmare
in constant misery, it's still a mystery
why i love you
when you can't stand me

i've got a better place waiting for you,
i've got a better place waiting for you out here,
as we hold on, we can roll on
together,
tie your sweater.

mirror close and my princess,
you're a noose and i'm a neck,
but we'd be so perfect
for each other.

stranger things have occurred,
three in the furnace flawlessly unburned.

you're the quiet stream,
you are my favorite dream
you're my poison and you are my nightmare,
in constant misery, it's still a mystery,
why i love you when you can't stand me.

i can't forget you girl,
refresh me of your name,
i call you every night,
you play our little game,
you're smiling back to us,
i'll be back here again,
that's just the way it always ends.

who am i talking to?
i always get it wrong.
this one goes out to you,
and then our ancient song,
and maybe you will fall,
just like Narcissus fell,
and be aflowered by our will.

i don't want you love no more.

the oxygen i breathe,
you are my favorite dream,
you're my poison and you are my nightmare,
in constant misery, it's still a mystery,
why i love you when you can't stand me.
