I get nervous when she's near is it something in the
atmosphere or is it
just her confidence that leaves me so defenseless
I don't know what to say when she's around she steals
the air from me
and it is difficult to breathe she makes me lose my
senses

She walks into the room immediately I am doomed I
have no defense
the Blue Planet's archeress her arrow pierced my chest
and I've been her slave ever since

She could be the one for me I get so weak around her,
I know that we were meant to be I can't believe I
found her.

When I saw her in the hall I stared too much and hit the
wall
She must think I'm a stupid guy cause I get so
distracted.
There's something in the way she sees the humor in my
stupidity.
If you met her you'd know why I'm helplessly attracted

She walks into the room immediately I am doomed I
have no defense
the Blue Planet's archeress her arrow pierced
my chest and I've been her slave ever since

She could be the one for me I get so weak around her,
I know that we were meant to be I can't believe I
found her.

She could be the one for me I get so weak around her,
I know that we were meant to be I can't believe I
found her.
