What yo thug and a lady, lady and a thug
Baby thug and a lady, lady and a thug baby
Vs wassup c'mon

Chorus

How can I love u, hold and adore u
When they say we shouldn't be? i'm talking
About lady and a thug and all kinds of
Trouble but that sounds good to me, baby

How can they tell you who you should love
When nobody else can see? (I need a thug in
My life) they're calling us a lady & a thug
And all kinds of trouble but that's ok with
Me, baby

They like to say that you're not the type i'm
Looking for when I was so sure the dat that
We met that no-one else gave me more they
Don't think that someone like you should
Ever hook up with me thay say that i'm thug
And say that I can't love and think my heart
Is in the street yeah

Chorus x 2

But that's ok with me, baby here we go again
So they say Blimi's not good enough for you
Lady? roll with the stuff

Who's the chick spitting platinum hits pink
Tims, ice bling, yeah you know who it is it's
Jamie Summers y'all and i'm twice as nice
Nice is the word that you use when you see
Something you like do you like what you
See? come over and take a bite boy don't be
Shy. I need a hot boy to treat me right knows
How to do it and when to do it and so precise
And when i'm chilling with my girls you
Know he don't mind

No matter what they say i'm still on your
Team baby oh they're never come a day I
Won't put you first lady

Chorus

Yo I know you like thugs so get with this
Thug and I know you like to drink c'mon
Baby just grab a glass here's a toast to me
And you conversating and getting close I
Like you in your nightgown, the way you
Walk around around town, shopping spree,
Prada, burberry gucci handbag, armani
Glasses, hugo boss fragrance i'm loving
Your toe ring and she likes the way i rock
Hoodies call me when you're lonely baby
It's thug and a thug lady

No matter what they say i'm still on your
Team baby oh they're never come a day I
won't put you first lady

Chorus

Baby they don't really need to know about
It don't know about it. don't know about it
Baby they don't really need to know about
It don't know about our love
