Visit "[Holocaust](#)" on MotoLyrics.com

Wait - by the dawn
Sons of Lucifer town
Bang - your heads
With devastation sounds
In front - of the humanity
End will come as an explosion

Lucifer will return
Heaven will have an end
Sacrifices and rituals in the night
666, it's the number of the death

Holocaust

Appears - on the mountains
The first warriors of destruction
All - with guns
Whose Vulcano has forget
Now - the eternal war
Finally has begun

The disbelievers
Will be crushed
By the self sons of Satan
