When the world will be over
He will light
Between the trashed and misery
The devil's son will come

Riding in his horse
He will ride
In the name of satan
To kill the christians

[Chorus:]
And them the ground will take
The evil will rule
The christians will die
And he will laught... riding in hell [2x]

The sea and the heart will revolt
And the lucifer's arms for the
Devil will fight taking regions, don't mind
With human lives only want to kill
