How was I to know this wouldn't be the first time?  
Looking back on all the time I've wasted  
Will I ever, ever know what it's like to see the light?  
Now I know, it's now or never to decide

I carry the weight of it all inside...

(Chorus)

I can't live another day without you  
Take away all the pain I go through  
'Cause I'm afraid of the truth (when I'm without you)

How was I to know in the back of my mind?  
Looking through all the tears I've tasted  
Will I ever, ever know what it's like to see the light?  
Now I know, it's now or never to decide

I carry the weight of it all inside...

(Chorus)

I can't live another day without you  
Take away all the pain I go through  
'Cause I'm afraid of the truth (when I'm without you)

(Bridge)

Why do I still feel the same?  
It's just another reason to stay...

(Chorus)

I can't live another day without you  
Take away all the pain I go through  
'Cause I'm afraid of the truth (when I'm without you)
