

## Vulpine "Dilate"

Visit "[Dilate](#)" on [MotoLyrics.com](https://MotoLyrics.com)

There's something more to this that I could feel  
But could not see (I could not see)  
It's what she said to me that makes me feel  
The way I do (the way I do)

(Chorus)

Every time you fade away, I dilate  
And you watch me break down again  
Every time you fade away, I dilate  
And you watch me break down again

There's so much more to this she could not give  
Or could not save (or could not save)  
It's what she said to me that makes me feel  
So afraid (I'm so afraid)

(Chorus)

Every time you fade away, I dilate  
And you watch me break down again  
Every time you fade away, I dilate  
And you watch me break down again

(Bridge)

All these things have blinded me for so long  
Everything seems so clear when you take the fall

(Chorus)

Every time you fade away, I dilate  
And you watch me break down again  
Every time you fade away, I dilate  
And you watch me break down again  
I dilate...and you watch me break down again
