Here it comes again, back to the end
Where we first began (back to the end)
Oblivious to everything I'm subjected to
There's nothing more to lose

(Chorus)
If forever never comes
I swear forever I'll love you

There you go again, just like before
Always wanting more (more than I can give)
Oblivious to everything, are you listening
When you hear me scream?

(Chorus)
If forever never comes
I swear forever I'll love you

(Bridge)
Back off of me, give me room to breathe
Hard to believe, I could never be what you need
Back off of me, give me room to breathe
Hard to believe, I could never be what you need

If forever never comes...

(Chorus)
If forever never comes
I swear forever I'll love you
If forever never comes
I swear forever I'll love you

Back off of me...
Back off of me...
