"I Love You"

Riding down the boulevard
On our bikes, we pedal hard
Touch my waist, pull me along
You kept me safe, you kept me strong

Wishing we could stay right here
And time would slow down forever
I love you and every little thing that you do for me (I
love you)
I love you and every little thing that you do for me (I
love you)

The restaurant down by the sea
That's where we'd go, just you and me
Everytime, number 29
And we would eat, on those plastic seats

Wishing we could stay right here
And time would slow down forever
I love you and every little thing that you do for me (I
love you)
I love you and every little thing that you do for me (I
love you)

I love you, oh
For everything you are
I love you
For every little thing you are

I love you and every little thing that you do for me (I
love you)
I love you and every little thing that you do for me (I
love you)
