"My Addiction"

I'm dizzy, spinning around
In circles (I fall to the ground)
I need more of your drug
To change me (to balance me out)

I need this fix again...

(Chorus)
I can't heal, what more can I do?
Is this real?
My only addiction is you

I see now it's all just a lie
To break me (to bring me down)
I need more of your drug
To change me (to balance me out)

I need this fix again...

(Chorus)
I can't heal, what more can I do?
Is this real?
My only addiction is you

(Bridge)
Bring me down
To balance me, to balance me out

(Chorus)
I can't heal, what more can I do?
Is this real?
My only addiction is you
