Inside I can't see the light of day
In here I keep my feelings locked away
Sometimes I feel so sullen and confused
Unclear why I keep coming back to you

(Chorus)

Wasted and broken, when you're so far away
But that's when you feel so, so perfect, so perfect

My mind doesn't seem to leave this place
In here I found the thoughts to fill this empty space
This time I'll take my chances with the truth
So clear why I keep coming back to you (coming back to you)

(Chorus)

Wasted and broken, when you're so far away
But that's when you feel so, so perfect, so perfect
Wasted and broken, when you're so far away
But that's when you feel so, so perfect, so perfect

(Bridge)

Have I been wrong?
I need you now that you're gone
Have I been wrong?
I need you now that you're gone

Inside, I can't see the light of day...

(Chorus)

Wasted and broken, when you're so far away
But that's when you feel so, so perfect, so perfect
Wasted and broken, when you're so far away
But that's when you feel so, so perfect, so perfect
