Miles Davis walked off the stage  
That's what the folks are all saying  
Oh yes, he did leave the stage  
After his solo was all over

Coltrane he walked off the stage  
That's what the folks are all saying  
Yes, they both left the stage  
Clean out of sight

They felt they had to rehearse  
Although we know they are masters  
They get a real groovy sound  
And you will have to admit it

Yes, they both left the stage  
Soon as their solo's were over  
And if you can't figure out  
Their groove I'd like to help you  
Their groove, I've helped you

So what
