You are
The perfect true embodiment of love
And I hope
We'll stop this circle going round and round

But I try (try)
Yes I try (try)
But I fall (fall)
On the floor

I feel like I'm on top of the world right now
And my heart is in my hand take it in to the world
right now
And I feel like I could do
Anything I want to do
Yeah, I feel like I'm standing 10 Ft tall
Standing 10 Ft tall
And I keep on floating
But I feel I'm standing 10 Ft tall

La La La La La La La La
La La La La La La La La
La La La La La La La La

So far away
From where I'm from

And I hope
We'll stop this state from going round and round

But I try (try)
Yes I try (try)
But I fall (fall)
On the floor

I feel like I'm on top of the world right now
And my heart is in my hand take it in to the world
right now
And I feel like I could do
Anything I want to do
Yeah, I feel like I'm standing 10 Ft tall

Standing 10 Ft Tall
And I keep on floating
But I feel I'm standing 10 Ft tall

La La La La La La La La
La La La La La La La La
La La La La La La La La

Be da bum bum
When it's all done
Be da bum bum
We still just keep on moving
Be da bum bum
When it's all done
Be da bum bum
We still just keep on moving

I feel like I'm on top of the world right now
And my heart is in my hand take it in to the world
right now
And I feel like I could do
Anything I want to do
Yeah, I feel like I'm standing 10 Ft tall
Standing 10 Ft Tall
And I keep on floating
But I feel I'm standing 10 Ft tall

La La La La La La La La
La La La La La La La La
La La La La La La La La

I feel like I'm standing 10 Ft Tall
You feel like you're standing 10 Ft Tall
We feel like we're standing 10 Ft Tall
They feel like we're standing 10 ft Tall
I feel like we're standing 10 Ft Tall
We feel like we're standing 10 Ft Tall
You know that you can stand 10 Ft Tall
I feel like I'm standing 10 Ft Tall
