"Tough Like Glue"

Visit "[Tough Like Glue](#)" on MotoLyrics.com

I've been sitting waiting
What's the use debating?
Tell me what we really gonna do?
Just relax and take it
Just relax and fake it
There's no need for feeling how we do
When you compromise it
Over analyse it
You will lose the honesty, it's true
You can smell a rat
When you lose the slack
All we wanna do is what we do (we do)

So, happy days
We'll be thinking right away
There's no use in feeling blue
When you're suddenly
Tough like glue

La la la la la la tough like glue
La la la la la la tough like glue
La la la la la la tough like glue
La la la la la la tough like glue

Like a clock is ticking
Like a clock is ticking
Like a clock is going round and round
Trying to designate it
Blow it up and smash it
Trying to take over this crazy town

So, happy days
We'll be saying right away
There's no use in feeling blue
When you're suddenly
Tough like glue

We'll be saying
happy days
We'll be saying
Right away

There's no use in
Feeling blue
When you're suddenly
Tough like glue

La la la la la la tough like glue
La la la la la la tough like glue
La la la la la la tough like glue
La la la la la la tough like glue

My my my
How it takes all night
Impossible life in a crazy time
Why why why
Does it make me cry?
As I ask all the questions to the reason why

Don't you try to pull us down
I'm solid
Nobody can steal my crown
Check my wallet
I'll be like a warrior
Never stopping!
Don'tcha try to speculate
Can't you hear me knocking

So, happy days
We'll be saying right away
There's no need for feeling blue
When you're suddenly
Tough like, tough like glue

happy days
We'll be saying
Right away
There's no need for
Feeling blue
When you're suddenly
Tough like glue

Sing it sing it sing it

La la la la la la tough like glue
La la la la la la tough like glue
La la la la la la tough like glue
La la la la la la tough like glue
