Alright take it away then I'll bring it right back
Bring what back? Show you what it means inside my
head and
Next sequel you'll be seeing it in a year
2005 to be continued..

Look at my wrists they're completely scar free
Emo kids wish they could look gay as me..
Take out my trash it's gone already
Forget your life buy mine for free..

YO I can't stand it when you can't see why
What happens when i don't know how to even try
Die will i lie, do we even civilize?
Rhyme rhythm rape or take away my beat and i'll
survive

Take all my ambitions and all my love for life is gone
But did it exist in the first place?
