[Kevin Cossom - Chorus]

What you know about this life
Just relax baby get
You're on your way to the best night ever
No top on the car (no top, no top)
Out with the stars (yeah)
You're on your way to the best night, best night ever

[Wale]

Forgetting time spending several minutes in her eyes
When in her mind it be feeling different in her thighs
And she'll advise, giving hours to another broad
Cause what is love if you aint discover loving her
She knew it before I pull the car
She pretty but she insecure as baby momma scars
Everything got a flaw, we desire perfection
Body pad as hell, as heaven
And her mind is amazing, different kind of connection
Love is for optimistics, no she try and convince me
And her body is steaming, how I need it revealing
Not a product on the market that can offer this feeling
It's so hard for civilians, thank God you were the boss
You found a prince withouth losing slippers or kissing
frogs

Don't get too far, just play your part, I break you off
And one day you give my all it's Inshallah

[Chorus]

[Rick Ross]

Open your eyes wide, rolling in the Rolls Royce
keep your mouth closed you f-cking with a
Everybody watching while you touching real money
I'm only rocking with the, that aint for me
My hood, even got 'em rocking heels for me
All the jewels on, got about a mill on me
Date a stripper but the , wanna feel on me
Third bottle feeling like they slip the pill on me
These snitches catch a case and cut a deal on me
So f-ck song writing poems for the real homies
One life to live but they all doing life bids

Everybody coming home deserve a white Benz
Gucci rocking this gold roly, I'm rocking mine
Baby told me, she never memorize the verse
Until the day I put a 100k inside her purse

[Chorus]
