do you think I'm crazy  
do you think I'm out of my mind  
with this tape  
rappers out of shape so  
i just wanna taper and me give it a shape up  
my flow is a razors edge (spits toothpick) CHICO

how can i convey this  
how can i portray this  
how can i relate this  
image with the same as the lyrics so i changed up  
pumper of the same stuff  
i gave them the tailor-  
made from the brain  
of the most genius  
always i appreciate it  
when they leave us  
no one give a damn  
when they breathe in the least bit  
when they try to teach us  
we be in the bleachers  
when they are deceased every player turn blue-chip  
same thing with this music  
they do grown immune to it  
make they own taste to produce it  
even in the visual, lyrical or audio  
clothing line struggle till the poppa nigga on it  
though who on it first usually gets laughed at and  
sassed  
and they say I'm over heads cuz they don't  
understand... that

do you think I'm crazy, crazy, crazy  
do you think I'm crazy, crazy, crazy

i swear they think I'm crazy  
too much percussion and bass  
when i take beats  
god gave me wisdom and you disbelievers atheists  
while I'm making history  
like i drew the temple, curriculum, get me

Ankou??, ancient like the pharaoh  
lil' more dinero  
denim flyin benz still kickin' tier zero  
yeah, i am crazy, hoppin off the wall like vega  
they vaguely decipher my language  
outta my mind come and chase me  
rich off of Grammer like I'm managing Frasier  
Cheers, psycho, maestro, orchestra delightful, the  
right flow, right flows down and they might go NICE  
a low life's plight  
i give up my light like an interracial couple wit a child  
I'm fuckin paramount, i hope they understand that  
light over heads mean I'm right where they heads is  
pause, epiphany, y'all, ironically, normal, and Nermal,  
from Garfield, you're "kitten" me  
haha

do you think i'm crazy  
do you think i'm crazy

it's obvious I'm crazy  
besides black thought, Ye and jay-z  
told you camp lo was my favorite  
they was on that mase shit  
i was on my sway ('suade) shit  
how can i persuade more heads to hear this great shit  
i can stop tryin' to  
had to get my mind on what i do  
they would not oblige to a mind who inclined or  
flyin' over climbers, glidin' through the skies as a slow  
minds wander  
walkin' on the ground  
and ipod mind to you Walkman guys  
but i apologize for not walking you around  
cuz i acknowledge i am far more knowledge, they are  
more garbage and i'm so nasir  
yeah, and i ain't saying that I'm nas here  
I'm just saying rap's dead when I'm not here  
bring it back, i ain't saying that I'm nas here  
I'm just saying rap's dead when I'm not here
