Are you insane? Welcome to the Asylum
House of true enchanted minds
It's the happiest place on earth for the violent
We almost lost you but we caught you in time

You're here for life, life
I'll fix you right, right
Gimme your life, life
It's all you gotta do

I'll give you life, life
I'll make it right, right
You're here for life, life
I wanna welcome you

Asylum #9
Oh, no running away there ain't no place to hide
Asylum #9
Oh, I'm your physician with a mission in mind

Asylum #9
Oh, no running away there ain't no place to hide
Asylum #9
Oh, I'm the healer of your stealer of minds

Are you in pain or just merely misguided?
Tell me the demons you've inside
I'll shrink where you think till you're fears are subsided
I'm your physician slash, magician of minds

You're here for life, life
I'll fix you right, right
Gimme your life, life
It's all you gotta do

I'll give you life, life
I'll make it right, right
You're here for life, life
I wanna welcome you

Asylum #9
Oh, no running away there ain't no place to hide

Asylum #9

Oh, I'm your physician with a mission in mind

Asylum #9

Oh, no running away there ain't no place to hide

Asylum #9

Oh, I'm the healer of your stealer of minds

I saw my father and me

No pain in the Well of Sighs

And I wanna die so I'm free

My Well where wishing dies

Asylum #9

Oh, no running away there ain't no place to hide

Asylum # 9

Oh, I'm your physician with a mission in mind

Asylum #9

Oh, no running away there ain't no place to hide

Asylum # 9

Oh, I'm the healer of your stealer of minds
