

W.A.S.P. "Never Say Die"

Visit "[Never Say Die](#)" on MotoLyrics.com

Never say die
Never say die, no, no
Never say die
Never say die

Never say die
Never say die no more
Never say die, no, no

Where will we go from here
My Neon One?
Or will we wander from now on?

Is there a promised land we hear
Of ever Neon sun?
Take us all down to your Heaven
My pagan son

Never say die
Never say die, no, no
Never say die
Never say die

Never say die
Never say die no more
Never say die, no, no

Never say die
Never say die, no, no
Never say die, no more

Never say die
Never say die, no, no
Never say die, my boy

But where do we go from here?
We really wanna know
Is it down, down, down, down
Or is it our Neon God?

Lead us a thousand years red rising sun
Stoned wilderness and give us love

You blew a breath into our ears
With your dying dove
Are we all hell bound forever, my heathen son?

Never say die
Never say die, no, no
Never say die
Never say die

Never say die
Never say die no more
Never say die, no, no

Never say die
Never say die, no, no
Never say die, no more

Never say die
Never say die, no, no
Never say die, my boy

But where do we go from here?
We really wanna know
Is it down, down, down, down
Or is it our Neon God?

Never say die
Never say die, no, no
Never say die
Never say die

Never say die
Never say die no more
Never say die, no, no

Never say die
Never say die, no, no
Never say die, no more

Never say die
Never say die, no, no
Never say die, my boy

But where do we go from here?
We really wanna know
Is it down, down, down, down
Or is it our Neon God?
