Gimme peace, gimme hope

Gimme love, love

Just one life to be free

Just one world live in peace

One love, love

Cause in a sea, feed my soul

Save one world, save us all

One love, love

Lift my hands, raise my heart

I touch the sky, the face of God

Rain all your love down on us all

Show me peace, show me love

I'll still see only one

One love, love

Rain you love down on me

Fill my soul, set me free

Give me love, love
