For so long now, I'm racing on, in the wind

On this road, I'm moving on

I feel her heat, the desert sun burning skin

Never stopping, always on the run

Ooh, forever all I want is you here by my side

But I can't wait too long, no

Holding me, is like, taming the seven seas

Call me restless gypsy, all I need

Is to catch the wind, where my heart's in

And I'm riding in the breeze

Call me restless gypsy, to the end

Riding free - is all I need

My spirit's in the wind

Move too fast, no never hold me down

Catch me if you really think you can

Feel my touch, two lover cry that sound

Never, ever knowing who I am

Ooh, I want you closer baby, don't you take too long

Cause tomorrow I'll be gone, yeah

And holding me, is like, holding the seven seas

Call me restless gypsy, all I need

Is to catch the wind, where my heart's in

And I'm riding in the breeze

Call me restless gypsy, to the end

Riding free - is all I need

My spirit's in the wind

Easy rider on the highway

Got the wind in my hair

Come on, you can touch me where I lay

Running free without a care

Call me restless gypsy, all I need

Is to catch the wind, where my heart's in

And I'm riding in the breeze

Call me restless gypsy, to the end

Riding free - is all I need

My spirit's in the wind
