Fall before me and bring me love
In here we are all pagan
Naked celebrations of

Oh, we are the dark descending
Feel the magic, the never ending son
Hey, we're going the lost ascending
Last of Eden, never ending heathen love

Show me your blind submissive love
Ooh, paint my name across
Your face in everlasting blood

Won't you come to me?
Don't you believe in your God of love?
I'm your God you need
I'll give you heathen love

Oh, won't you believe
I come to breathe life into your doves?
And I'll make you see
Make all believe neon

Change us all forever
Claim us all for life
Take us all to your heaven
Change us all for love

Won't you come to me?
Don't you believe in your God of love?
I'm your God you need
I'll give you heathen love

Oh, won't you believe
I come to breathe life into your doves?
And I'll make you see
Make all believe neon
