I'm looking to beat hell, looks like I've got to run to be  
the leader

As my forces yell, you can hear 'em, can't you hear  
them

All the way- we'll go the distance now

All the way- stand behind me now

All the way- no turning back

All the way cause we are together

I'm standin' proud, we're screaming loud, I'll lead the  
crowd

Running wild in the streets

A heavy dose of mean, yeah, I'm a lethal combination

Hear my forces scream, you can see them, can't you see  
them

All the way- we'll go the distance now

All the way- stand behind me now

All the way- no turning back

All the way we are together

I'm standin' proud, we're screaming loud, I'll lead the  
crowd

Running wild in the streets
