One night as I rolled down some long winding road
I saw you and I knew I couldn't let you go
Half child and all woman, vision fantasy
Cast against the moonlight bathed in ecstasy

Leopard's skin and cat's eyes
Has the jungle made you wild
The prey you're after, if you're faster
Will it make you smile

Ride with me, I'll set you free
Chains can't hold us down
I need you, if you want me
Lovers we are bound

Sweet cheetah, cheetah
I wanna feel your claws run through me
Fever, fever, I want it, babe
Come do it to me

Cheetah, cheetah
I love it when your claws run through me
Fever, fever, I want it, babe
Come do it to me now, do it now

Skin tight you move in so slowly to thrill
Waiting for the nightmare then you're in for the kill
Amazon so sleekly you know what to do
Eat the flesh and save my heart and leave it when
you're through

Pain and pleasures all mine
Untamed and running wild
Sink your teeth into me
Lick your lips and smile

Take my hand and ride the land
Forever you and me
Hold on tight to me all night
And set your spirit free

Sweet cheetah, cheetah

I wanna feel your claws run through me
Fever, fever, I want it, babe
Come do it to me

Cheetah, cheetah
I love it when your claws run through me
Fever, fever, I want it, babe
Come do it to me now, do me now

Sweet cheetah, cheetah
I wanna feel your claws run through me
Fever, fever, I want it, babe
Come do it to me

Cheetah, cheetah
I love it when your claws run through me
Fever, fever, I want it, babe
Come do it to me

Cheetah, cheetah
I wanna feel your claws run through me
Fever, fever, I want it, babe
Come do it to me
