What's your excuse for living like
You're somebody different
You're nobody different
You're just somebody
Tell me what's the reason behind
All your frustrations
It's a bad situation

Can you trust me
Do you think that maybe you live your
Life in circles

Going round in circles

Heading nowhere
Talk about it, live without it
If you wanna sort it out you gotta
Come on and talk about it, live without it
What's your excuse for living like

You're somebody different

You're nobody different
You're just somebody
