The broken footprints
Lead us to a naked dawn
Pulls us away from
all those yesterdays
In its wake

Close your eyes
Take a picture

Everything around us
Is moving so slowly
Don't forget to breathe
It's useless
For today
In its wake

Close your eyes
Take a picture X2
Picture

Ahhh

Close your eyes
Take a picture

Now our time is over (coming to)
Like vapour (like papers)
We must come down
Everything's alright
Keep moving
In your way
For today

Close your eyes
Take a picture X2
