Chorus:

If we can't find this ground with each other
Then i'll just walk these streets all alone
And if this path should lead over yonder
Well then i'll know that i'm already home

I got this feeling
From you when you walked in
Didn't have to explain

See i remember
It was forever forever
Instead i sing

Chorus

I can't believe this is where my story ends
I know we could start it again
Catching up i am reading the fine lines
I know we could write it again

There's an ending we could pretend

I got this feeling
From you when you walked in
You didn't have to explain

See i remember
It was forever
Instead i sing

Chorus

And if we can't find this ground with each other
Then i'll just walk these streets all alone
And if this path should lead over yonder
Well then i'll know that i'm already home
