Mister could you maybe lend a hand
To help a drowning, starving, soulless man
Who's eyes are blind and feelings all but numb
Who's ears are all so deaf and mouth is dumb

This is the way, is the way
I fill your spaces now
It's the way, it's the way
Cause all that's been left for me
Is to fight to fill these empty spaces now

Night is day and day is night again
All that's eating bites bites with toothy grins
The pages of my memory torn in twain
Where reconstructing lies cannot contain

This is the way, is the way
I fill your spaces now
It's the way, it's the way
Cause all that's been left for me
Is to fight to fill these empty spaces now

Now
Now

This is a way, is a way, I fill your spaces
Now there's a way, there's a way I fill your spaces
Now there's a way, there's a way I fill your spaces
Now there's a way, there's a way
Cuz all that's been left for me
Is the fight to fill these empty spaces

Empty spaces now
Empty spaces
Empty spaces
