"Could It Be So?"

Visit "[Could It Be So?](#)" on MotoLyrics.com

Something strange is down there
but we don't know where
it's been lying in peace
waiting for it's release
but that moment will come
long after we are gone
like it did long ago
before we were born

Could it be so that
we have been here before
could it be so that
this all happened before

Ol' man Jacques found that road
in the bottom of the sea
indians wrote 'bout the bombs
that you just have to see
and the huge rocks in Giza
it seemed like they moved
and the pictures in desert
I wonder who drew ...

Ancient wisemen knew things
that we can hardly dream about
builded statues and temples
that can't be pulled down
now we seek for that wisdom
from too far away
wonder 'round with our eyes blind
and think we are there
