Darlin' you know it's true
The rumor you heard about me lovin' you
Well, I've never told a soul, so
Tell me how the whole world knows.

It must have been the roses and the wine
Or maybe this unexplainable smile
They say where there's smoke there's fire
Well, I hope it's true
'Cause rumor has it, you love me too.

I've got a ring and a plan
But I see you're on to what I'm gonna ask
But I never said a thing
So tell me what gave it away.

It must have been the roses and the wine
Or maybe this unexplainable smile
They say where there's smoke there's fire
Well, I hope it's true
'Cause rumor has it, you love me too.

It must have been the roses and the wine
Or maybe this unexplainable smile
They say where there's smoke there's fire
Well, I hope it's true.
'Cause rumor has it.

It must have been the roses or the wine
Or maybe this unexplainable smile
They say where there's smoke there's fire
Well, I hope it's true
'Cause rumor has it, you love me too
Yes you do, I heard it too.
