If you've never felt what happens when two hearts  
Fall Together,  
Or never seen love written in the stars  
And knew it was forever,  
If you don't believe that destiny can start with just one  
wish,  
Watch this.

Chorus  
I'll show you love like you've dreamed of -  
I've got so much to give.  
Watch this.  
Don't be afraid -  
You'll be amazed at all the ways that i can  
Show you what you missed.  
Just close your eyes and  
Watch this.

A broken heart can't always live in fear  
Afraid to fall.  
I can make those feelings disappear  
In no time at all.  
If you want to feel the world stand still  
From the magic of one kiss,  
Watch this.

(Chorus)  
(Chorus)

Oh, baby, watch this.
