So long, see you around
Seen all I want to see of this town
I'm outta town and I'm outta tears
Oouta my mind and I'm, outta here

Who needs the heartache baby
Who needs the pain
Who needs to hang around and take the blame
Who needs a woman to make him blue
Who needs you baby - I do

Why are you wearin that negligee
Sure makes it hard to walk away
I gotta go I can't take this abuse
Why are you smilin, would I lie to you

Who needs the heartache baby
Who needs the pain
Who needs to hang around and take the blame
Who needs a woman to make him blue
Who needs you baby - I do

You've got your fingers in my hair
Whisperin in my ear
Fillin my head full of doubts
Tell me just what you think you've got
I can't live without

Who needs the heartache baby
Who needs the pain
Who needs to hang around and take the blame
Who needs a woman to make him blue
Who needs you baby - I do

Who needs the heartache baby
Who needs the pain
Who needs to hang around and take the blame
Who needs a woman to make him blue
Who needs you baby - I guess that'd be me
