Sisters of the precious blood  
Confined to cloisters  
Know the flesh of your sisters  
Handmaids of christ  
Find sapphic self  
Awaken dormant power  
Between the legs  
Manipulate crucifix  
To masturbate and penetrate  
Find sapphic self  
Awaken dormant power  
"Mary - sweet mother  
Gentle protectress  
Neverending font of nurturing"  
God compels the chosen through centuries of silence  
She sheds like skin  
When novitiates kiss her breasts  
Break this oath of silence  
Stifled desires  
Resurrect dead senses  
With tongues that  
Taste and tease cunt  
[Solo- P.S.]  
God compels the chosen  
Through centuries of silence
