"Gotta Leave This Town"

Gotta Leave This Town
(Walter Trout - Album : Go the Distance)

You Â´ve gotta leave this town
Lonely is only got you down
Leave this town!
You know that it's only got you down

Take a look around
You' re dying in this town
When you' re out on the street
You cross your dreams beneath your feet

Walking on the street!
Now you cross your dreams beneath your feet

Murder all about, there must be must be some way out
Lord there must be so way out

Guitar Solo

On a dirty street
You ask the people that you meet

On a dirty street
You ask everybody that you meet

(YouÂ´ve) got to understand you're dying in this town
This dirty town
