The Next Big Thing
Walter Trout Key: D

He's the next big thing
Everybody gonna know his name
The boy can play and he can sing
And he know how to play the game
Only one thing on his mind
That's fortune and fame

He's a new gunslinger in town
He's shooting all the old boys down
He's waiting in the street
Quick draw on each gunslinger he meets
He's looking for blood
Leaving bodies in the mud

Solo... 2 verses

Go see the next big thing
I swear he wont go wrong
He's coming to your town
He's always ready with a song
He's gonna be the next big thing
Until the next big thing comes along
He's gonna be the next big thing
Until the next big thing comes along

Until he comes along ... Yeah
Outro Solo.....End.
