See his picture in my place is telling  
Me Iâ€™m not good anymore  
See you sitting in his car is driving  
Me insane cuzâ€™ Iâ€™m not sure  
Making choices, hearing voices telling  
Me to stand outside your door

So I canâ€™t get you all alone  
Face to face, not on the phone  
And Iâ€™ll bend a knee and try my best to let you know

Wait, donâ€™t tell me youâ€™re the one, the one that got  
away  
I never meant to let you go  
So Iâ€™m not trying to delay it, Iâ€™m trying to hurry up  
So I can tell you at the show

Every night Iâ€™m at the space inventing  
Ways to show how much I care  
Putting words together, but forever  
Doesnâ€™t work if youâ€™re not there

So now I know what needs to do  
Iâ€™m going to fess it up to you  
So canâ€™t you see that babe, the rest is up to you

Wait, donâ€™t tell me youâ€™re the one  
The one that got away  
I never meant to let you go  
So Iâ€™m not trying to delay it,  
Iâ€™m trying to hurry up  
So I can tell you at the show

Wait, donâ€™t say itâ€™s too late  
Just give me a chance  
A better second time around  
So babe, if that ainâ€™t the case  
Iâ€™m never coming back  
Cuz baby what I lost, he found
