"Breathe Without You"

Visit "[Breathe Without You](#)" on MotoLyrics.com

Drowning in the distance from me to you
Underneath the surface
All colors fade to blue

Getting through another night
Slipping through another day
Heaven seems so far away

Breathe without you
How can I breathe without you?
Breathe without you
I'll never breathe without you

Breathe without you
How can I breathe without you?
Breathe without you
I'll never breathe without you

Swimming through the images you left behind
Reflections of the harbor
The shore I'm trying to find

Getting through another night
Slipping through another day
Heaven seems so far away

Maybe questions I don't get
Maybe answers I regret
But there's to many things I can't forget

Breathe without you
How can I breathe without you?
Breathe without you
I'll never breathe without you

Breathe without you
How can I breathe without you?
Breathe without you
I'll never breathe without you
