Seems like yesterday  
Was a game we played  
Or a scene from a movie

Can't we freeze the frame  
Can't we pause the game  
Can't you always be with me

Am I running out of time  
Am I really losing my mind  
And I'm running out of time  
With you

Can't it just be now forever  
You and me together  
Now forever  
Than you'd say

I wish the days to come  
Were already gone  
Already far behind us

Every kiss goodbye  
Every sacrifice  
Every time you walk away

Am I running out of time  
Am I really losing my mind  
And I'm running out of time  
With you

Can't it just be now forever  
You and me together  
Now forever  
Than you'd say

Can't it just be now forever

You and me together  
Now forever  
Than you'd say

Am I running out of time  
Am I really losing my mind  
And I'm running out of time  
With you

Can't it just be now forever  
You and me together  
Now forever  
Than you'd say

Can't it just be now forever  
You and me together  
Now forever  
Than you'd say
