Visit "[Vincent](#)" on MotoLyrics.com

Tell me it's only yesterday
But I would feel this way

Pure and innocent he came to me
It was love at first sight
Meant to be

A little miracle
You can count on me
Whatever the future will be

Once you were a part of me
Now you're lying here with me

... your shining face
So fragile, so young
my sweet embrace

You're my little miracle
You can count on me
Whatever the future will be

You're my little miracle
Whether you will go
I just want you to know

You're my little miracle
